

## Municipal Health & Safety Association

### PROFESSIONAL DEVELOPMENT CERTIFICATE LEVEL TRAINING

“In the Spirit of Prevention” is pleased to announce that it is offering a selection of professional development training programs throughout the Conference. These are full day sessions, set at a higher level and designed for the Health and Safety Practitioner wishing to upgrade his or her knowledge and skills in the disciplines provided.

#### Training Programs

**October 1<sup>st</sup> and 2<sup>nd</sup> (2 day program)    Confined Space Entry & Rescue Awareness Training**

*This 2 day course covers the safety issues found in Confined Space work. This practical training was described by one participant as “The most fun an adult could have in a learning environment”*

**October 1<sup>st</sup> or 2<sup>nd</sup> (1 day programs)    Clandestine Laboratory Awareness**

*This course provides awareness and hazard recognition training for municipal workers who may knowingly enter into a Clandestine Lab or accidentally locate a lab or a contaminated environment*

**October 2<sup>nd</sup> and 3<sup>rd</sup> (2 day program)    Emergency Medical Services Workplace Specific Training**

*This 2 day training course will provide knowledge and understanding of hazards faced by EMS Management (JHSC) in their daily activities.*
